THE TRACY FUNERAL.

Large Attendance of
Prominent People.

A DOCK LABORERS' STRIKE.

Montana Deadlock Finally
Broken.

Arrival in Port of a Disabled
Steamship.

A Dual Funeral.

WASHINGTON, Feb. 5.—The services over the remains of the wife and daughter of Secretary Tracy were appointed for 11 o'clock, but long before that time the East Room of the White House was crowded. It was a most distinguished gathering, including nearly everybody of prominence in Washington. It is estimated that nearly a thousand people were in the house. A great crowd gathered outside, and it was found necessary to station the police at the gate to keep them out.

The caskets containing the dead were placed side by side under the chandelier. The sombre drapings of the caskets were almost concealed by the flowers and garlands, and wreaths were banked against the side of each.

The mourners and Presidential party were assigned seats fronting the caskets. The foreign Ministry and many army and navy officers were present, and nearly all were in full uniform. The members of the Cabinet, except Secretary Blaine, acting as pall-bearers, took seats on the right, and they were followed by Secretary Tracy and his son Frank and the other members of the family.

As soon as they were seated the choir of St. John's Episcopal Church sang the hymn, "Lead, Kindly Light," Rev. Dr. G. W. Douglas, rector of the same church, read the Episcopal burial service, and at its conclusion the choir sang, "Jesus, Lover of My Soul." The Scripture lesson read by Rev. Elliott and the prayer by Dr. Douglas concluded the services.

The President, with Secretary Tracy on his arm, first passed out of the room. The bodies were then removed to the hearse and the funeral procession formed, moving slowly to Rock Creek Cemetery, where the bodies were placed in a receiving vault to await a permanent resting place.

Secretary Tracy did not go to the cemetery, as it was feared the task might prove too much for his strength. The President occupied a carriage with Frank Tracy, and a long line of carriages, containing nearly all of those who attended the services in the White House, followed the remains to the cemetery.

Deadlock Broken.

HELENA, Mon., Feb. 5.—The deadlock was broken in the Senate this morning. A motion was made to consider a bill from the Republican House, when two Democrats demanded the ayes and nays. Seven Republicans voted in the affirmative, four Democrats not voting. Lieutenant-Governor Richards held a quorum was present because two Democrats called for the ayes and nays, and declared the motion carried.

The Democrats were dumbfounded. The Senate is now considering a Republican House bill.

U. S. Senator-elect Sanders left for Washington this morning. Senator Power hopes to recover from la grippe and leave Saturday.

High Water at Portland.

By Associated Press.

CHICAGO, Feb. 5.—For several days the city of Portland and other points in Oregon have been practically cut off from telegraphic communication. From a telegram received this afternoon by the Postal Telegraph Company at Montreal by C. B. Hosmer of the Canadian Pacific, forwarded by him to the Associated Press, it would seem that Portland is in danger from floods. The message was as follows: "The water is now flooding the first stories knee deep. All traffic in the streets is suspended and the only means of communication is by small boats. The Pacific Postal Telegraph office floor is covered with water and the river is still rising. No news from the south."

The situation is undoubtedly due to rapid rising of the Willamette river, which flows into the Columbia just above Portland. For nearly a month past the hills and mountains of Oregon through which the river flows have been piled with continually falling snow. The drifts in some places are fifteen feet deep. During the past few days, however, the warm winds have melted this and the Willamette river has become a torrent.

On the Northern Pacific between Noxon and Trout Creeks there have been several serious slides since Saturday. The telegraph lines are also interrupted.

A Laborers' Convention.

By Cable and Associated Press.

BERLIN, Feb. 5.—Emperor William, in reply to Bismarck, refers to his desire to ameliorate the condition of the workmen. He desires the ambassadors of France, England, Belgium and Switzerland to be officially asked whether their Governments are disposed to come to an international agreement with Germany with a view to meeting the needs and wishes of the workmen as revealed in recent strikes. Bismarck is empowered to invite all nations interested to attend the laborers' conference.

Judge Kelly's District.

By Associated Press.

PHILADELPHIA, Feb. 5.—The Republicans of the Fourth Congressional District nominated State Senator John Freyburn for the vacancy in Congress caused by the death of William E. Kelly. The election will be held on the 18th inst. The district is strongly Republican.

A FORMIDABLE WEAPON.

By Associated Press.

With Which the French hope to Get Back Lost Territory.
The German press is discussing at length the merits of the "miracle gun." The rifle was invented by M. Paul Gifford, in Paris, the original projector of the Parais pneumatic post. It is described thus: "The weapon is light, much lighter than any of the rifles now in use. It resembles the magazine gun in that a steel cartridge about a span and a half long and as thick as a man's thumb, is attached to the one barrel by means of a screw. The cartridge contains 300 shots, which can be discharged as rapidly or slowly as a man desires. Since neither powder nor any other explosive, but only compressed and liquefied air, supplies the expelling force, no smoke and no flash accompanying the discharge. Only a short, sharp, low report is heard as the ball leaves the cartridge. At the recent trial the ball traveled with wonderful accuracy and penetrated deep into the wall of the shooting room. As soon as one cartridge is emptied of its 300 shots, another cartridge can be screwed on the gun in the twinkling of an eye. M. Gifford says that the 300 shots in the cartridge can be produced at a cost of about two and a half cents. The gun itself can be manufactured for about \$5."

An Albany Bill for the World's
Fair Lost.

Congressional Affairs.

By Associated Press.

WASHINGTON, Feb. 5.—The Senate, after a long discussion on the question of providing more rooms for the use of the committees of the Senate, took up the bill to provide a temporary government for Oklahoma. The clerk commenced to read the bill, but had not completed the reading when a bill to aid in establishing temporary support of common schools was taken up as unfinished business. Blair addressed the Senate in advocacy of it.

Senator Cullom to-day reported favorably from the Committee on Commerce Senator Spooner's bill to regulate the interstate commerce telegraph. Its provisions are similar in their general tenor to those of the interstate commerce law as applied to railroads.

HOUSE.

The House Committee on the World's Fair adopted the sub-committee's bill, with an amendment providing for an appropriation of \$1,500,000 for the erection of a building for the Government's exhibitions.

The sub-committee was instructed to immediately frame in its report a full committee bill providing for a scheme of procedure in the House.

A large number of the members having gone to attend the funeral of Mrs. and Miss Tracy, the clerk was permitted to read the Journal in an abridged form.

On the yeas and nays being demanded by the Democrats, it was approved, and the House adjourned.

A Republican caucus was announced to be held immediately, while a Democratic caucus is to be held this evening.

The Republican caucus was called to order by Henderson of Illinois. The new code of rules was discussed by McKinley, who explained them in detail.

The reading of the code consumed a great deal of time. As each rule was read its provisions were explained by McKinley or Cannon. There were frequent inquiries for more detailed information as to the effect of the changes, and the work progressed slowly.

It will probably be 5 o'clock before the rules will finally be passed upon. A number have been adopted, including the one giving the Speaker a right to refuse to recognize dilatory motions and to determine what motions are made for the purpose of delay.

The House Committee investigating the Ohio ballot-box fraud, this morning continued the examination of Gov. Campbell. In answer to Governor Foraker, the witness said he had not predicated his assertion, made in a speech that Foraker was an infamous scoundrel, upon the Luce letter, but it was in answer to Foraker's charge that he was a party to a million dollar steal.

Witness had said that any man who charged another with stealing a million dollars when he did not know what he was talking about, was an infamous scoundrel.

Witness said he never saw one of the ballot-boxes except the one in Campbell's office and the one brought to use in Washington. He never traveled with a ballot-box in his life, and never spoke to the President about a ballot-box bill.

To a member of the committee witness said he introduced the ballot-box bill altogether upon T. C. Campbell's request. He thought Campbell should have a show for his box.

What He Deserved.

By Associated Press.

CHICAGO, Feb. 4.—At 4:30 this afternoon the motion of ex-editor James G. West of the Chicago Times for a new trial, on the charge of fraudulent over-issue of stock, was overruled. According to the jury's verdict, West was then sentenced to five years in the Penitentiary.

World's Fair Bill Lost.

By Associated Press.

ALBANY, N. Y., Feb. 5.—In the Senate the Assembly World's Fair bill was put upon final passage as amended, but only received 13 affirmative votes, 17 being necessary, the bill was declared lost.

Serious Charges.

By Associated Press.

MALDEN, Mass., February 5.—The Chief of Police this morning arrested Miss Dr. Ludgate, of Boston, alias Miss Etta H. Parris, of Linden. On the charge of keeping a lying in hospital without license, but a warrant for a more serious crime will be sworn out. Five girls are suffering from malpractice found at her house.

A Proposed Compromise.

By Associated Press.

DES MOINES, Feb. 5.—In the House this morning the Republicans rejected the Democratic proposition of yesterday, but agreed to set a conference committee at work to effect a compromise. Adjourned.

DENVER, Feb. 5.—The Freeman's Journal says that at the opening of Parliament next week Parnell will demand the appointment of a committee to inquire into the Times-Picott conspiracy.

To-day's overland trains were several hours late. The delay of the east-bound trains is understood to have been caused by a slide.

JOTTINGS.

E. C. Leadbetter has received a fresh lot of California lemons and oranges. The reason Lemery never loses a boarder is because his patrons always feel that they receive full value for their money.

The Riverside Hotel is where you will never fail to find a nice room, a good bed and as fine a meal as you ever sat down to in the State.

The prettiest assortment of valentines ever brought to Reno can be seen at C. A. Thurston's hardware store, and he offers them at bed-rock prices.

J. N. Wallace's increasing grocery trade shows that people are satisfied with his goods and prices. Give him a call and you will be sure.

Every day in the week J. J. Becker sets out a hot free lunch that is equal to an ordinary meal, and his Boca and Sacramento beer cannot be excelled.

By being satisfied with a moderate profit, Miss Emma Gibbs has been able to build up a lucrative trade in millinery and all kinds of fancy work.

In order to keep up his assortment, C. J. Brookline is obliged to run his candy factory six days in the week. Try his five cent cigars—the best in town.

It is generally conceded that no better beer was ever offered in this market than George Becker's Pacific brew. He also carries a full line of the best liquors and wines.

USEFUL INFORMATION.

Tilbury Fox, M. D., the eminent medical writer, in his work "Skin Diseases," thus accounts for the pimples so common to the face and neck. Eating too rich or too greasy food, or too hearty eating while the excretory organs are sluggish, causes in most people indigestion or a dyspepsia condition, which causes the blood to move sluggishly, and encloses the pores. The result is, that the exuding secretions block in the pores, which inflame, each distinct inflammation being a pimple. Dr. Fox therefore does not prescribe "blood purifiers" so called, but a "dyspepsia cure" to be taken, to use his own words "till the dyspepsia symptoms have disappeared." The old idea was, that face eruptions were caused by a "humor in the blood," for which he treats the blood, purifying the mineral, potash, "Joy's Vegetable Sarsaparilla" follows the modern ideas of Dr. Fox, and aims with gentle vegetable alteratives at the stomach and digestive organs. The reason is apparent why it cures dyspepsia and indigestion, and the pimples and skin eruptions which result therefrom, and why sarsaparilla that use minerals fail.

The papers are publishing the report of Bank Examiner Kenyon of Minnesota to the Governor relative to the American Building and Loan Association of Minneapolis. As the Association did considerable business in Reno, and may involve several citizens, the GAZETTE suggests that if there be any who do not believe in the swindling character of the concern that they procure a copy of Examiner Kenyon's report and be undeceived.

TO-NIGHT'S PLAY

By the Grismer-Davies Dramatic Company.

The *Alta Californian* says: "The *Tigress*," a dramatization of Ramsey Morris' novel "Crucify Her," was produced last evening at the Bush-street Theater by the Grismer-Davies company before a large audience and made a very favorable impression. The play opens at Monte Carlo, where Sara, a pretty flower girl, is trapped into a mock marriage by a young rascal. He soon tires of his victim, and having lost his money at the gaming tables and been rejected by a handsome adventuress, with whom he has become infatuated, seeks suicide. Five years after this event, the "bouquetiere," now become Angela Romano, a governess in a nobleman's family, is brought in contact with Stella Barotti, the aforesaid adventuress, and a so-called brother, Count Barotti, who is a slipper passing himself off as her brother and who uses her as a stool-pigeon to decoy his victims. Both women fall in love with Count Baudry, the nobleman at whose chateau they meet, and the rest of the play is made up of the struggle between these two women for supremacy. Major Pike was confined to his room a week, but is out again.

COMET.

La Grippe in Churchill.

A St. Clair correspondent writes as follows: "The plague has struck the good people of Churchill county, and every house contains from one to five patients, many of the houses presenting the appearance of hospitals. The epidemic has in the majority of cases assumed the shape of severe colds and sore throats, with a few cases of neuralgia, pneumonia and quinsy. Several of the schools have been obliged to cease work, and the few convalescent ones have their hands full ministering to the afflicted ones."

An Old Man's Kick.

J. W. E. Townsend of the Homer Index writes as follows: "The good Lord can convince us that he is still our friend by ordering Old Boreas to call off his foul-weather dogs, and give us a respite from the wind and snow that has made us miserable for more than three months. We would like to feel warm once more. Our blood is chilled, and we wouldn't kick if we had to go to school to get up-circulation."

A Narrow Escape.

Last night about 12 o'clock as engine 1011 was coming from Truckee light, it ran into a slide which tore the pilot and one cylinder off and gave the boys a heavy jolt. As slow as they were running, the engineer is of the opinion that had they but a few cars behind them they would certainly have gone into the ditch.

Charitable Disbursements.

At the meeting of the commissioners Monday, relief of \$10 each was granted E. D. Rapes, Mrs. Jose, Mrs. Bigham, Mrs. E. C. Hurley, Mrs. E. B. Towl, Mary Stockpole, Mrs. Anker, Mrs. McCann, Mrs. Stockpole and \$15 to George P. Small.

HUMBOLDT ITEMS.

Snow Disappearing—Plenty of Water—Dead Cattle.

The Winnemucca *Silver State* says: The snow has nearly all disappeared from the valleys and the greater part of the water soaked into the ground, which is now thoroughly saturated. The roads of course are necessarily soft and traveling will be bad for some time yet.

Persons from different parts of the country say the disappearance of the snow discloses the carcasses of many dead cattle. What the general loss will be in Central and Eastern Nevada cannot be estimated with any degree of correctness at present, but it is very heavy.
